AnalyzeThisSurvey™

Minutes, Not Days

- **Fast Implementation**
- **Quality Software**
- **Affordable Price**

Pays for itself in the first year!

Saves Time and Money

- Quickly and easily compare your company jobs, salary grades, range structures and incumbent salaries with survey data that you have already purchased.
- Analyze your company's position versus "The Market" to develop new salary ranges and forecast salary increase budgets.
- Use any number of survey files from multiple vendors, working securely off-line. Our robust ad-hoc report and export tools provide the comprehensive reports needed for this type of analysis.

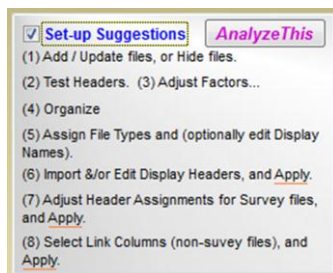

Quick Set-up

- Identify your survey, employee and company job files.
- Decide what columns are important from each survey file.
- Enter an age, weight, and other factors.
- Click AnalyzeThis!

Your analysis is then available to map your company jobs to benchmark survey jobs.

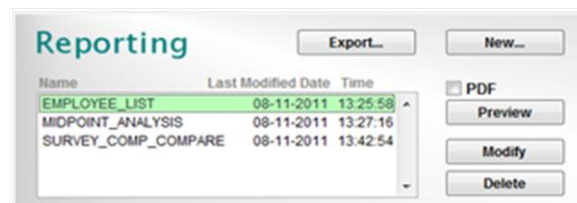

Easy and Fast

Eliminate the hassle of manual spreadsheet combination. On-screen help is available every step of the way.

Our user-friendly manual provides additional help for those new to survey analysis or **AnalyzeThisSurvey™**.

Ad-Hoc Reports

Create your own reports with the robust ad hoc report writer. Reports can be generated as PDF documents to share electronically. The *Export* tool outputs the analysis to a spreadsheet file.

Secure and Confidential

- Your survey and company information is highly encrypted every step of the way and only accessible to assigned users.
- Prompt> has been an innovator in the use of strong encryption since the mid-1990s.

Survey File Preparation

Too busy to set up your analysis yourself? Need a partner to combine them for you? Prompt> staff help every step of the way by organizing your files and doing your initial analysis to get you off to a quicker start!

The Sky's The Limit!

There is no limit to the number of vendor surveys allowed, number of columns selected or number of company jobs and employees. Take control of your survey data with **AnalyzeThisSurvey™!**
